

MAGNETIC SENSORS FOR PNEUMATIC CYLINDERS WITH T SLOT

BMT = activated by external magnet for pneumatic cylinders with T slot

BMT	2	0	3	F	1
------------	----------	----------	----------	----------	----------

1 = black color housing
2 = blue color housing

0 = NO (normally open output)
1 = NC (normally closed output)

2 = REED contact 2-wire with LED
3 = REED contact 3-wire
4 = REED contact 2-wire for high temperatures
8 = NPN static output
9 = PNP static output

- = PVC cable
R = PUR cable
F = PUR cable with M8 male connector with fixed nut (for 2-wire version connected on pins 1-4)
C = PUR cable with M8 male connector with fixed nut (2-wire version connected on pins 1-3)
N = PUR cable with M8 male connector with rotating nut
H = PUR cable with M12 male connector with rotating nut

Cable length (if required different than standard 2m)
